

# Playful Solutions to Using EMDR With Children and Teens for Play Therapists and Child Therapists

Sponsored by Dawson Counseling and Play Therapy, LLC

When child and adolescent therapists complete training in EMDR therapy, they sometimes find it challenging to integrate EMDR into their current work. We are using a variety of play therapy based techniques such as sand, art, and dolls to support EMDR therapy with children throughout the 8 phases to make the benefits of EMDR therapy possible with children and youth who may be avoidant or too young to fully engage with elements of the standard protocol.

With Annie Monaco, LCSW, RPT-STM and Ann Beckley-Forest, LCSW, RPT-STM
