Why EMDR?

EMDR is an evidence-based practice as listed by SAMHSA.

The American Psychiatric Association, the International Society for Traumatic Stress Studies, the US Department of Veterans Affairs

and Department of Defense designated EMDR as a treatment of choice for Post Traumatic Stress.

90% of mental health clients have experienced multiple traumas in their life.

How is this program different from other EMDR trainings?

This is a hands-on clinical skills training for using EMDR and integrating it with your psychotherapy approach. This top-of-the-line training program exceeds EMDRIA's criteria for EMDR basic training, and features:

- No "Parts" or "Levels" – this is the whole package. No "extra costs" for consultation.
- 55 contact hours over several months to support mastery; 50 CEs
- Two full pre-EMDR days on trauma treatment approach and interventions.
- Small group breakouts
- Instructor to participant ratio of at least 1:10.
- Text book and other materials included.
- Competitive cost. Follow-up group consultation sessions included.
- Attachment, Dissociation, and Child Modules included

The training program involves lecture, demonstration, in-class practice, and on-the-job practice with your clients. This is an experiential training, and part of the learning is to practice the interventions with other participants.

Who may attend?

EMDR Therapy training is open to master level mental health professionals who are licensed (certified or registered) by their state for independent practice and have a caseload

to practice the therapy while in the course. This training is also open to mental health professionals on a licensure track, with a letter of support from their supervisor.

Annie and Ann are the co-editors and chapter contributors of the book *EMDR and Children in the Play Therapy Room: An Integrated Approach*.

What will I learn?

Participants will be able to:

- Identify clients who are ready for EMDR and prepare clients for EMDR.
- Conduct an EMDR session.
- Problem-solve a session that is not going smoothly.
- Use EMDR with a wide range of clients whose presenting problems are in some way related to trauma and/or loss.
- Integrate EMDR into a comprehensive trauma-informed treatment approach.
